Personal Bio

I have been passionate about performance art my whole life and have honed that passion throughout years of training and experience. I've developed improvisational skills and have always been an outgoing extrovert. Some of my biggest strengths include charisma, leadership skills and being detail oriented. Being adopted at the age of 2 from Ethiopia and growing up in the US has given me a cultured and unique perspective that continues to be a big part of who I am. Until recently my experiences have been mainly live performances but am seeking to shift into more film/behind the camera work going forward.
