Personal Bio

I'm an 18 year old class of 2020 high school graduate with a very strong and driven passion for both modeling and acting.

Currently, I attend the university of St.Thomas in Saint Paul, Minnesota pursing a 4-year degree in Business while minoring in environmental science.

When I'm not in school, I devote whatever free time I may have to my loved ones. Family is everything to me, I wouldn't be where I am in life without them.

I don't have many hobbies, but I tend to them with great interest and motivation. I LOVE to hike and be outdoors, read books wheneer I can and be in the gym working out or training specifically for the sports in which I play. I do consider myself an extreme extrovert. I strve in social environments, I'm a very vocal and sociale person that is always willing to help those in need. Although I do enjoy being in a sociable atmosphere, I also enjoy being alone sometimes and reflecting on life and how I can learn from any mistakes I've made. As I grow more interested and become much more motivated to make a career in acting and modeling, I watch and study movies/film's in which define what makes the profession a modern day art. Studying the best of the best only motivates me to be up there amongst the greats.
