Personal Bio

I was born in Northern Minnesota. I am 100% Italian. I just retired from being a Registered Nurse for almost 40 years. I was a flight nurse in Alaska for 3 years and the remaining part of my profession was at the U of M hospital working as a Transplant R.N. I live in Minneapolis. I am very active in many different sports. I love to entertain people. I am very interested in commercial, TV, film and Voice over work. I believe my medical background would also benefit production work with medical and pharmaceutical projects.
