From Wesleyan University I graduated with a degree in Film & Theater, under the guidance of Jeanine Basinger. Wanting to be a Director, Ms. Basinger taught me I could not properly understand that responsibility without facing an audience, interacting with fellow actors, and taking direction from those whose vision was to be fulfilled.

To learn, with Ms. Basinger's help, I was honored to be able to attend class with and learn from extraordinary teachers to advance my understanding, which enhanced my performance as a Director and my 400 finished works over more than two decades.

Now, my time in the viewfinder and broad life experience helps me to deliver the goods on the other side of the lens.
